

DEPARTMENT OF FAMILY MEDICINE AND COMMUNITY HEALTH UMN MEDICAL CENTER

SUMMARY

The **University of Minnesota Medical Center Family Medicine Residency** is a university-based, community-focused training program, operating in an award-winning clinic and hospital in Minneapolis.

The program leads an independent family medicine service, with patient-centered bedside rounding. Residents benefit from a half day of didactics by a variety of disciplines.

The curriculum emphasizes chronic and ambulatory care, women's health, integrated behavioral health, and procedures.

What Our Residents Say:

"Training opportunities in women's and global health drew me to the program. Faculty were warm and supportive, and I knew this was a place I would grow professionally."

"It's an urban, academic family medicine program that serves a diverse patient population. The faculty and staff are supportive, and the program allows residents to explore their interests within family medicine."
