

UMN Diabetes Research Day

Friday, June 2, 2023
9 a.m. to 12 p.m.

This event is to celebrate outstanding basic and translational research in the area of diabetes and metabolism at the University of Minnesota. Our trainees will be featured carrying out diabetes/metabolism-related research and we are honored to feature Dr. Juleen Zierath from the Karolinska Institute as the 2023 Lazarow lecturer.

Invited Guest Speaker:
Dr. Juleen Zierath

* **9:00-11:00: T32 Abstract Presentations**

11:00-12:00: Lazarow Lecture: "Where will the future of exercise biology take us? Leveraging lifestyle interventions to manage type 2 diabetes"

12:15-1:00: Special Seminar: History and Impact of Alfred Nobel and the Nobel Prize in Physiology or Medicine

HSEC 3-150

526 Delaware St SE, Minneapolis, MN 55455
