Policy Implementation: Text Version

Adaptive Leadership

- **Core Philosophy:** "Be willing to pivot and adapt."
- **Approach:** Remain "vulnerable and adaptive."
- **Operations:** Ensure there is a need for clear data collection, documentation, and decision making.
- **Management:** Outline roles and responsibilities for staff implementing policy and promote cross-agency collaboration.

Improve Support to Clients

- **Wraparound Services:** Expand release supports and wraparound services including housing, food, and healthcare.
- **Social and Economic Support:** Partner with organizations that offer family-focused programs to support social needs and economic stability.
- **Navigation:** Utilize an interdisciplinary team of navigators with lived experience to assist with family-focused re-entry.
- **Administration:** Implement formal documentation processes.

Refining Processes

- **Eligibility:** Establish clear processes for eligibility screening and maintain continued conversations to expand eligibility.
- **Communication:** Designate a point person to communicate about policy.
- **Transparency:** Create opportunities for communication among other key players, document processes, and increase transparency in decision making.
