

DEPARTMENT OF FAMILY MEDICINE AND COMMUNITY HEALTH

ST. JOHN'S

SUMMARY

St. John's Family Medicine Residency Program is based at M Health Fairview St John's Hospital and the M Health Fairview Clinic - Phalen Village. We offer robust training in inpatient medicine, obstetrics, and ambulatory medicine. We prepare our residents to work in any practice environment and to pursue fellowship opportunities. The clinic is located in a diverse, urban neighborhood in St Paul. We care for a well-established, ethnically diverse population, ranging from newborn infants to patients at the end of life.

M Health Fairview St John's Hospital is a busy, community-based, award-winning hospital. The residency service is integrated into all aspects of hospital services. The busy emergency room, ICU, and obstetric services complement the in-depth inpatient teaching services offered at the hospital.

Program Size

6:6:6

Community Size

306,621 people in St. Paul,
as of 2017

Community Served

Urban underserved
Ethnically diverse

Location

St. Paul

What Our Residents Say:

"The diverse, challenging patient population appealed to me. I also liked the small-town feel of the hospital with the urban clinic. I like that hospital call is full spectrum and similar to actual practice."
