WHAT IS A LONGITUDINAL INTEGRATED CLERKSHIP?

A Longitudinal Integrated Clerkship (LIC) is a clerkship in which medical students participate in the comprehensive care of patients, their patients, over time.

LICs allow for continuity of relationships with patients, continuity of relationships with preceptors and continuity with the health care system.

Through experiences in the LIC, students meet the majority of the year’s core clinical competencies across multiple disciplines simultaneously.

Adapted from Consensus LIC Definition CLIC 2007

IMPORTANT DATES
• Application due by 11:59 pm on December 1, 2019
• Interviews in December/January
• Notification of acceptance into program in February 2020
• Clerkship starts July 2020 and runs through April 2021
  - 4 weeks time off (includes 2 week winter break & 10 days vacation)
• Pre-requisite of a required clerkship (OB, Peds or Family Med) prior to starting
