ARTWORK BY REBECCA MCDUGLE - MS

A special gift

Like the seeds of wildflowers in the wind, donors’ contributions to medical research and education will spread far and wide. They have given the ultimate gift, with the power to improve medical care and drive life-saving breakthroughs for generations. In honor of our first teachers, we share our gratitude with this gift of wildflower seeds.

This paper ornament is embedded with wildflower seeds. Hang it in a special place until spring. When you are ready to plant, soak the paper in a glass of water for a day. Plant under a thin layer of soil. Water daily and keep moist until seedlings are well established.
